Classico 3330 + Lounge Large right with windows

TELLURIA, let us **STEEL** your heart

We deem layout and comfort to be paramount in our homes. So why not in the garden too? It's all possible with our **TELLURIA** storage unit. Lend your garden the touch of elegance it deserves.

The storage unit is a win-win solution, and is a real eye-catcher to boot. The storage unit is available in different sizes. There is a choice between 3 colours (white, light-grey and anthracite).

Without inside wall

With inside wall

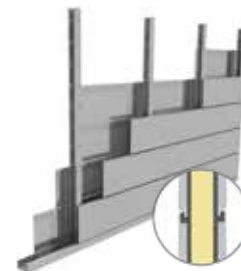

USEFUL TIPS
BEFORE STARTING THE
ASSEMBLY:

*View our
Website*

Classico 3330 + Lounge Large right

With the free space in between the inner and outer wall, insulation** and utilities can be easily integrated!

< > 8 cm.

**The insulation needs to be provided by the customer.

STRONG AND DURABLE

The galvanised supporting structure guarantees longevity. Steel is the **material of the future**.

QUICK AND EASY ASSEMBLY

The system is made up of prefabricated components that are **easy to assemble**. Brief instruction or a concise manual is all that is needed for quick assembly.

NO MAINTENANCE

Do it the easy way with an Classico garden building. A steel construction requires **less maintenance than a timber one**. Touching up the paintwork is superfluous as the garden building always looks as good as new.

SECURE

Using steel means safer construction, less maintenance, fewer foundation issues and **no need for heavy construction** equipment.

CONTEMPORARY LOOK&FEEL

TELLURIA offers a range of finish options **for a contemporary, functional look&feel** that dovetails effortlessly with most building styles and settings.

ECOLOGICAL FOOTPRINT

The constructions are **100% recyclable and can be re-used**. Being lightweight in construction, Telluria can be transported very efficiently. The constructions are supplied in kit format. Accordingly, there is no waste or surplus consumption of energy, water or other resources.

STANDARD FEATURES

Standard features:

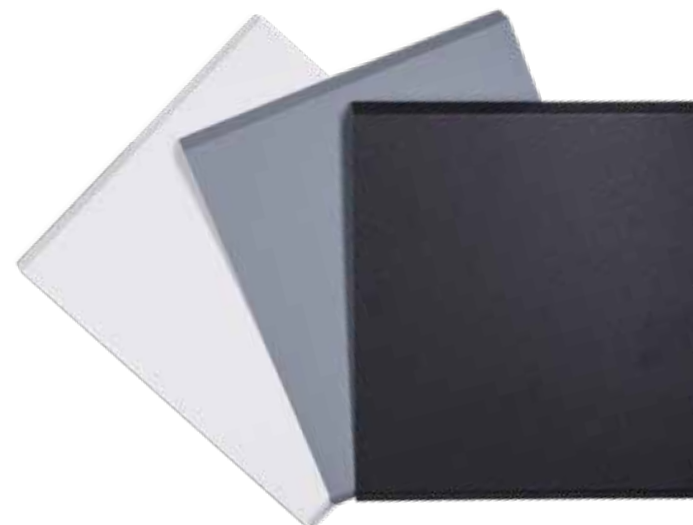

- The roof is made up of insulated sandwich panels (4cm.). The underside of the roof is always white
- Door with plexi opaque glass, 4mm (clear)

Ventilation

The ventilation grille ensures that the room is sufficiently ventilated so that any exhaust fumes or other disturbing odours can easily find their way out.

Drainage

The garage is equipped with a drainpipe that drains the rainwater away. The garage 3663 has 2 water drain pipes. (Ø 60mm)

Window (fixed and clear)

The window provided in the garage has double glazing and brings some light into the darkness.

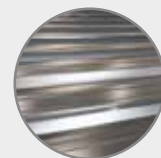

Colours

The garage is available in three modern colours. White, light grey, and anthracite. There's a colour to suit everyone's preference.

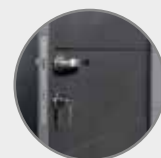

Garage door

The electric door ensures ideal ease of use on both departure and arrival. The motor is equipped with LED lights so you never come home to a dark garage.

Insulation

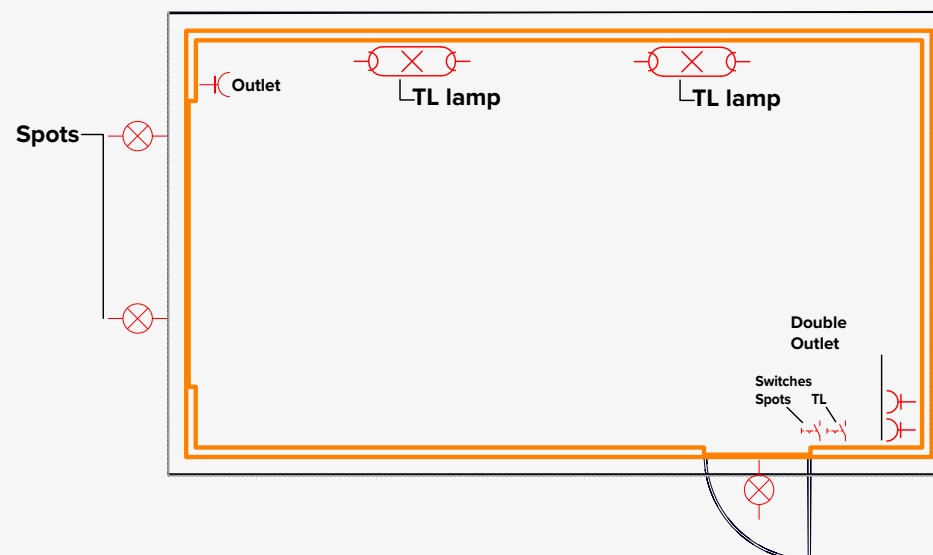

The roof of the garage is equipped with insulated steel sandwich panels. The free space between the inside and outside wall allows for full insulation of the garage.

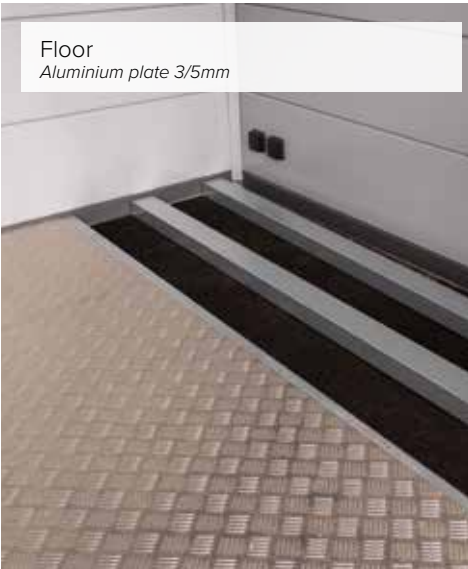

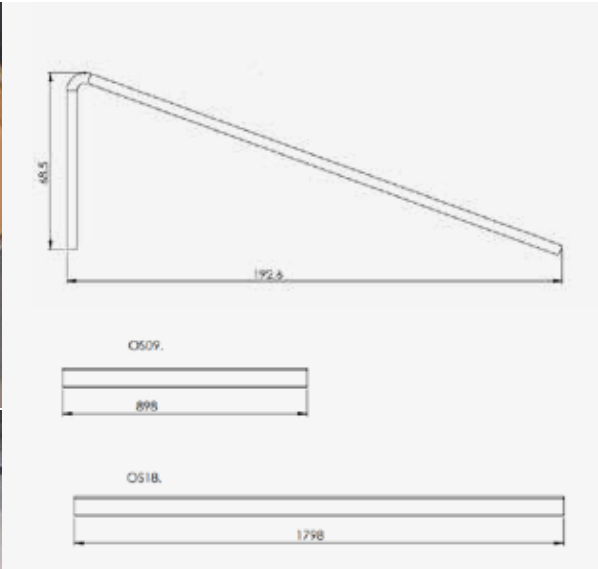

Lock

Lastly, let's emphasise safety. The garage has a solid latch and a sturdy lock that together blend beautifully into the gorgeous design of this garage.

Electricity kit

Please note: The electricity kit option requires the inside wall. It cannot be ordered separately.

Option Sliding doors

Enjoy your Lounge or Singolo all year round

Telluria glass walls are an excellent option to provide a space for all weather conditions.

Enjoy every season with glass wall

Transform your lounge or canopy into a real garden room with glass walls. Select our weatherproofing system for optimal protection against cold, wind, and rain. Thanks to the optional sliding connectors, you can open everything in one smooth motion and fully enjoy the outdoor feeling. Add an extra lock to keep unwanted guests out. The stylish anthracite or black frame blends seamlessly with the design of your Lounge or Singolo—perfect for those who want to make the most of their garden.

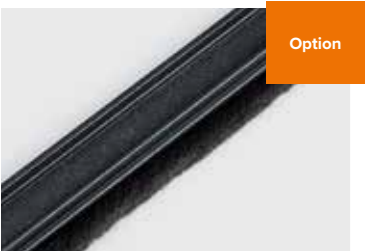

Choose your colour

Looks matter too, which is why you can choose between classic anthracite grey or timeless black for the frame of your glass wall. A handle ensures the sliding panels stay fingerprint-free, and optional lock will keep all your belongings safe.

BLACK	Similar to RAL 9005
ANTHRACITE	RAL 7024*

The walls are made of 10 mm thick safety glass, contributing both to the strength and the refined appearance of the design.

NEVIO BOXES

FOR WHEN YOU WANT A DRY BUM

Although most garden cushions can withstand a little rain, it's still nice to be able to store them somewhere dry during periods of prolonged rain. Preferably within easy reach, of course. And if possible, in a container that's also decorative.

The Nevio lives up to all of those promises. It keeps your cushions dry and protects them from pests, so that your cushions will last longer and your bum will always be dry.

Nevio 180

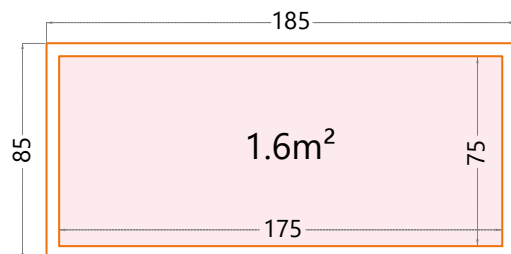

Height: 85cm.

External dimensions: 185x85cm.

Internal dimensions: 175x75cm.

VELOTTO

THE MASTER OF BICYCLE CHAOS

Meet the Velotto: the master of bicycle chaos!

With room for as many as two bikes. Whether it's a sporty race bike, a cool mountain bike or E-bike, the Velotto provides handy and decent storage to protect your precious two-wheelers. Thanks to the lock supplied you can rest assured. They are both dry and secure.

No more fuss with bikes that fall over and get in the way. No more wrestling with a mess of bikes in your garage.

The container has two doors, which can be folded so the Velotto can also be installed in a narrower passageway. The top of the container is insulated so it stays quiet in the rain.

But that is certainly not all. It also has an extra power function, quite literally. Indeed, it is equipped with electrical sockets, allowing you to charge your electric bikes inside.

Velotto, the steel storage container and firm favourite for your bikes.

GIARMADIO

DE DON JUAN OF TELLURIA

Looking for a steel storage space to keep your garden tools safe and make your neighbours green with envy?

Then Giarmadio is exactly what you need. As cool as a Viking, as strong as a sumo wrestler and as handy as can be. It keeps all your precious tools safe and provides protection from wind and weather. With its insulated top it also stays quiet when it rains. But that's not all! It ensures that you never get lost in your pile of tools.

The Giarmadio can be upgraded with handy shelves and hooks to keep everything neat and tidy and instantly accessible. So, you will never have to hunt for that lost screwdriver again! And, let's admit it, it would look lovely in your garden or on the balcony of your apartment, because it is also really useful for storing brooms, watering cans and other small equipment. Extra storage space is always an advantage.

Giarmadio

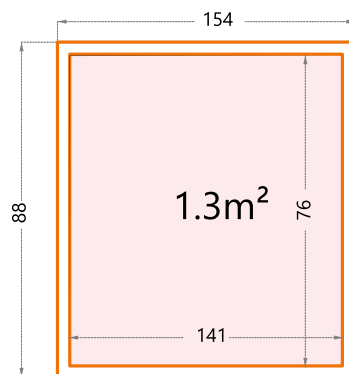

Height: 193cm.

External dimensions: 154x88cm.

FENCE

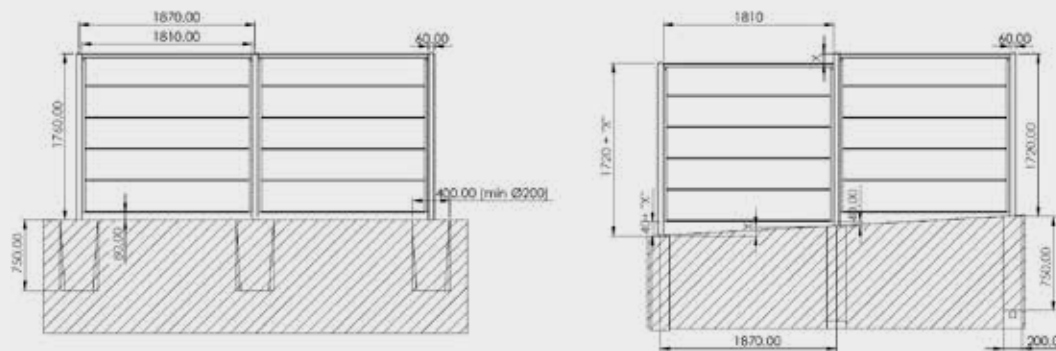

A modern STEEL fence

We are living with increasing levels of pressure and stress. Often, the only place we can relax is at home. Alone or with our family.

And to be fair, we would rather not be disturbed after a busy day if we are looking for some peace and quiet. Our garden is a little piece of paradise that will always be there. So embrace that blissful place. Embrace it sustainably and with both hands. Embrace it with our Telluria fence.

An elegant solution to guarantee your privacy. The sleek design matches any garden. Whether you have a romantic English garden full of lush flowers, or a sleek garden with trained lime trees and a swimming pond.

This fence will provide the finished detail without taking the attention away from your garden.

Steel is a sustainable construction material

All profiles are made of galvanised (hot-dipped) steel. The steel plates have a 275g/m² zinc layer, ensuring an Classico garden building never rusts.

TELLURIA only uses high-grade steel delivered by European suppliers.

These suppliers produce steel using state-of-the-art, efficient processes, from raw material to the finished product. This means we can guarantee you optimum product procurement for in your garden.

Revolutionary STEEL construction system

Visit our website
www.telluria.eu

STEEL OF LIFE

TELLURIA is an easy to install steel construction system. The countless benefits of steel mean this system will play a vital role in the future; with its flexibility the system inspires the realisation of people's dream constructions.

ON-SITE PRODUCTION

All TELLURIA components are of European origin, produced at our site in Belgium. Our fully standardised and automated production process is continuously monitored, resulting in premium products. The components and constructions are comprehensively and stringently tested, using only high-grade materials. As a result they can cope with extreme conditions (they are fire-resistant, can withstand high winds ...).
